### COLUMBIA'S 163D YEAR BEGINS; 16,000 STUDENTS

New Schools Are Expected to Help Break Attendance Record Made Last Year.

Columbia University will begin its one hundred and sixty-third academic session to-day with exercises in the gymnasium. President Butler will preside and Prof. Edwin R. A. Seligman, head of the department of Economics, will speak on "The True University."

Opening exercises of the College of Physicians and Surgeons will be held in the assembly room of the school on Fifty-ninth Street. Dr. W. T. Langdon, head professor of the practice of medicine, will give an address on the "Milestones in Medicine."

It is thought that last year's record of 16,000 students will be exceeded. New schools of business and dentistry are being opened, and many of the college seniors are electing to take their last year in the School of Business.

Dr. William H. McCastine, the university medical officer, has been instructed to keep a careful watch over the health of the students, but no uneasiness is occasioned by the late prevalence of paralysis.

### NEED OF CHEMISTS IN NATION'S DEFENSE TOLD

Gen. Crozier Says in Convention U. S. Should Encourage Them—Other Subjects Discussed.

The American Chemical Society, convening in the same week with the National Exposition of Chemical Industries, at the Grand Central Palace, and the annual meetings of the American Electrochemical Society and the Technical Association of the Pulp and Paper Industry, is in session to-day in Horace Mann Auditorium, Columbia University, forecasting developments in production vital to the commerce, defense and other welfare of the country.

President Charles H. Lertz at yesterday's session recommended search for the permanent source of motor fuel in alcohol. He hinted that solution of the potash shortage lies in the possible ability of chemists to make the soil yield in usable form its potash-bearing silicates. He pledged the society as a group of scientific volunteers to bring Gen. William Crozier, Chief of Ordnance in the War Department, and urged Government storage of toluene for explosives.

Gen. Crozier admitted that war can not be carried on without the chemist. He suggested that the Government should by purchase encourage private manufacturers to equip their plants for manufacturing military necessities.

There was a reception to the chemists at the Hotel Astor last night. Sectional conferences and other meetings will be held to-day at Columbia University, the exposition, the New York College of Pharmacy and the Chemists Club.

### Max Bohm Shows Mural Triptych At Knoedler's

Max Bohm, musician, a pupil of Laurens and Constant, is showing at Knoedler's, until the end of this month, three mural paintings forming a triptych, made for the walls of a music room in the house of Mr. and Mrs. Longyear of Brookline, Mass.

The treatment is highly modern and the colors used are exceedingly decorative.

Mr. Bohm has showed his imagination to run riot in the grouped panels. The central figure, according to Louis K. Anspacher, who writes the preface to the catalogue, is a personification of harmony. She is shown wearing an elemental robe of Suffragette yellow and is posed in an attitude of meditative alertness. She kneels upon a broken Corinthian column, indicative of the pagan order of melodic simplicity. The composition, with its fanciful orchestration, is significant of the passing of old time harmonies and the dawn of the new era of symphony.

A flock of woolly sheep, at the left, a group of singing children and a working artist, painted vigorously, at the right of the canvas enter forcefully into the composition and furnish the musical motif. In the background is a decorative but undifferentiated mass of Madrona trees, broadly treated.

The left panel introduces a smithy, a forge, an anvil and a group of workmen. The hissing iron blends in spotless white laving her hands in a purring brook. A flock of grazing sheep is nearby. The force lends atmosphere to the composition.

The right panel introduces a sailing boat with bent sails. In the background is the rising sun with radiating light beams shooting after the fashion of searchlights, superimposed upon the prancing horses of the dawn, that are plunging wildly under the furious driving of their jomed driver. At the left is a little group of children wondering at the sailing ship.

The three panels are painted just above a conventionalized sheaf of

corn grouped about a tree that is crowned with a laurel wreath.

### IS YOUR HEALTH WORTH \$5.00?

Woman Tells How Lydia E. Pinkham's Vegetable Compound Restored Her Health.

Lima, Ohio—"I was all broken down in health from a displacement. One of my lady friends came to see me and she advised me to commence taking Lydia E. Pinkham's Vegetable Compound and to use Lydia E. Pinkham's Sanative Wash. I began taking your remedies and took \$5.00 worth and in two months was a well woman after three doctors said I never would stand up straight again. I was a midwife for seven years and I recommended the Vegetable Compound to every woman to take before birth and afterwards, and they all got along so nicely that it surely is a godsend to suffering women. If women wish to answer to me I will be delighted to answer them."—Mrs. Jennie Meyer, 342 E. North St., Lima, Ohio.

Women who suffer from displacements, weakness, irregularities, nervousness, backache or bearing-down pains, need the tonic-strengthening properties of the roots and herbs contained in Lydia E. Pinkham's Vegetable Compound.

If you want special advice, write the Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass.—Adv.
